Elections of the New MAT Office Bearers.....	6
Resolutions of the Mat Extra Ordinary Meeting.....	9
Official Closing of the Meeting.....	9

INTRODUCTION

On 11th January 2011, the Medical Association of Tanzania conducted an Extra Ordinary General Meeting with the objective of conducting election of new office bearers. The meeting took place at the famous Diamond jubilee Hall and assembled over 60 members of the association from different regions of Tanzania. Along with conducting general elections, the meeting also utilised the opportunity to discuss other issues including;

- MAT annual report and future activities,
- Addressing challenges that impound doctor's welfare,
- Comments to improve the Medical and Dental Act which is recently being reviewed.

OFFICIAL OPENING OF THE MEETING

The session was carried out by the MAT president, Dr. Edith Ngirwamungu who welcomed members to the meeting and thanked them for responding positively to the invitation. She further urged them to actively participate in the meeting so that the objectives of the meeting can be adequately addressed. The main objective of the meeting was to conduct general elections which were postponed in August, 2010.

MEDICAL ASSOCIATION OF TANZANIA ANNUAL REPORT (2010) – DR. EDITH NGIRWAMUNGU

The report gave a brief profile of the association, an overview of MAT activities and their implementation status. It also highlighted a number of challenges as well as available opportunities for the association to prosper.

MAT was established in 1965 as a representative body of medical associations. The association has the following objectives among other things;

- ✓ To represent interests of medical professionals
- ✓ To maintain ethics in medical practice and research

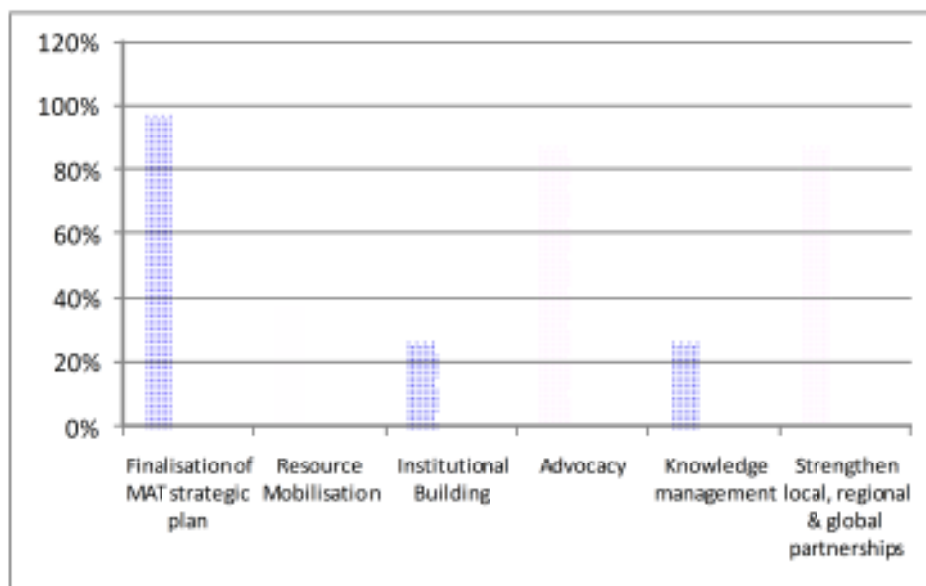

Currently MAT has been appointed to chair the health professionals' alliance and it is the patron of Tanzania Medical Students Association. MAT is also a member of the NIMR Council and due to the significant number of professionals within MAT; the association has also been appointed to be a Board member of Tanzania Association of Professional Organisations. At the ministerial level, MAT is also represented in the currently formulated Human Resource for Health Technical Working Group. Along with that MAT is now a proposed member of Medical Council of Tanganyika according to the Medical and Dental act (Cap 152) under review.

Activities implemented by MAT in the year 2010

Major activities implemented by the association for the year 2010 include among other things;

- ❖ Finalisation of MAT 5 year strategic plan; this was accomplished and launched by former Minister for Health and social welfare, Hon. Prof. David Mwakyausa during the 45th MAT Anniversary in August, 2010.
- ❖ Resource Mobilisation
- ❖ Institutional Building
- ❖ Advocacy
- ❖ Knowledge Management
- ❖ Strengthen local, regional and Global partnerships; this has also been successfully achieved as MAT has established partnership with National Medical Associations across East Africa and has been represented in various international forums.

The overall achievements from implementation of the above activities is estimated at 70%. The graph below summarises the performance of each activity;

The low performance in some of the activities was due to a number of challenges, these include;

- i. Lack of financial support for secretariat to execute its activities.

The outgoing MAT leadership has strived to bring MAT to the level it has reached today; the new Council should aim to raise MAT to a much higher level. Members should also be on the forefront to make this goal a reality

- ii. Lack of willingness of potential donors to support MAT secretariat; the requirement is for members to support its own secretariat.
- iii. Weak policy on partnership with international NGOs registered in Tanzania. There are a significant number of international organisations working in the health sector in Tanzania. Efforts towards attracting potential donors to partner with MAT have not yielded results but are promising.
- iv. Current mechanisms for collecting membership fees are not favourable for many MAT members to contribute their dues on a timely manner.

Despite the above challenges, there are still a number of opportunities that MAT may utilise to backup its objectives and day to day activities. Such opportunities include;

- ✓ Supportive Policies particularly on growth of the private sector in Tanzania
- ✓ The East Africa integration
- ✓ Recognition by local and Global forums on the role of Human resources to meet MDGs

DISCUSSIONS

During the plenary discussion, various comments and suggestions were aired out by MAT members; among issues that transpired included;

- ✪ *The need for MAT to reshape its focus; the main objective of the association should be to ensure that all medical professional associations are united under MAT. This will enlarge the number of members supporting MAT and thus give the umbrella association more muscles both financially and professionally.*
- ✪ *MAT members were also encouraged to devote more to their association; the suggestion to make direct deductions from doctor's salaries was put on discussion and the new council was urged to conduct a feasibility study on legal and logistical requirements in consultation with Tanganyika Medical Council so that the proposal can be put into action. It was noted that this contribution will largely strengthen MAT financial base.*

- ✪ *Moreover, MAT members noted that MAT zonal network is very weak; this has resulted in disintegrated the association. It was thus suggested that the new leadership should work on this and ensure that each zone has a MAT chapter.*

- ✪ *Furthermore, members noted that the issue of doctor's welfare was not given a high priority in MAT activities; this has therefore limited the will of members to support the association. Various examples of violation of doctor's welfare specifically on housing, were aired by members and it was decided that among other activities, MAT should work shoulder to shoulder with its members to ensure that their welfare are not violated and are improved from time to time.*

MAT ANNUAL WORK PLAN FOR THE YEAR 2011 – DR. EDITH NGIRWAMUNGU

After a brief report of the MAT activities for the year 2010, the MAT president utilized the opportunity to share with members at the meeting, the proposed work plan of the association for the year 2011. From the evaluation of the 2010 performance, the president proposed that it is crucial for the new council to carry over some of the 2010 activities that were not adequately executed, these included among other things;

- ✓ Resource Mobilisation
- ✓ Institutional Building
- ✓ Knowledge management

The objective is to raise the performance of the above activities and also continue some of the activities such as advocacy, institutional building and maintaining partnerships.

Along with these carried over activities, the president also highlighted some new activities that MAT is targeting to implement for the year 2011 derived from the strategic plan. These are;

- ✪ Membership services; the objective is to ensure that every registered doctor becomes MAT member. This should also be legally stated in the Medical and Dental Act (Cap 152) which is now under review.
- ✪ Continued Professional Development; this is a crucial activity and MAT has already started talks with the Medical Council of Tanganyika and MUHAS.

- ✧ Patient safety and Community health; As a core function in medical practice we should ensure the confidence and trust of patients and the community continues to grow.
- ✧ Deployment and Retention of doctors; currently young doctors are not assured of being deployed immediately after internship and also the retention mechanisms are not enforced particularly at local government. MAT needs to advocate for a clear policy on immediate deployment and retention of doctors countrywide.
- ✧ Promotion of Doctor's Welfare; it is important for doctors to have adequate information on their welfare stated in existing policies and schemes. MAT should be in the forefront to educate doctors on these policies and stand firm to ensure that benefits which motivate doctors to practice medicine in the country are not violated.

Inputs from participants

To build on the proposed activities, members made the following inputs;

- ✓ *Unity and mutual respect among doctors is a good start for implementation of all activities. When all doctors are united with a shared vision MAT will have a high profile.*
- ✓ *Membership services should be prioritised by the association, once members are motivated everything is possible.*
- ✓ *Fulltime secretariat is an important tool for execution of the above activities and will improve the performance of the association.*
- ✓ *Doctors should also volunteer to contribute and resource mobilisation activities should commence immediately.*
- ✓ *MAT may also lobby influential doctors to support MAT at the decision making level.*
- ✓ *Doctors should be entitled to the NHIF/green card.*
- ✓ *Regarding doctor's welfare, MAT should issue a statement where welfares are denied and ensure that rectifications are made immediately.*

ZONAL REPORT

As part of its tradition, MAT also utilized the Extra Ordinary Meeting to receive zonal report from one of its chapters. This year's report came from the Mwanza chapter and was presented by Dr. Kabangila Rodrick from Bugando University. The presenter informed participants that the Lake zone was motivated to put MAT back to life in their zone, he also informed participants

The MAT chapter in Mwanza intends to be a good example and a stimulus for other regions to establish their zonal chapters.

that a special committee was established with an objective of formulating a vibrant MAT chapter in the lake zone. The assignment has been accomplished and a council has been elected with 120 members. The leadership of the council has been appointed with 120 members. A strong backup was given by senior doctors in Mwanza. The Chair of the meeting commended Mwanza chapter for this development and was joined by members in counting this achievement as an important milestone for the association in 2011 as stipulated in the 5 year MAT strategic plan (2010 – 2015).

ELECTIONS OF THE NEW MAT OFFICE BEARERS

The afternoon session of the MAT Extra-ordinary meeting was utilized for the general elections of the new MAT office bearers; both the Executive Committee and Council members. There was a long debate on the election process. Finally, a compromise was reached on the procedure to elect office bearers specifically on those members who applied for posts but were absent. It was unanimously agreed that for the posts where the applicant is physically absent then a member present at the meeting can volunteer to contest.

The session was preceded by the speech from the outgoing MAT president, Dr Edith Ngirwamungu.

President's Speech

Commencing her speech, the MAT president thanked all MAT members for their support and mutual collaboration that they provided to her and to the whole council throughout their term of office. She further acknowledged that there have been a number of challenges on the way however the outgoing council has managed to bring MAT to the appreciable level it is today.

She specifically outlined some activities implemented by MAT for the year 2010 that have helped in branding and raising the profile of the association. Such activities include the Public Service Week, Sabasaba and Nanenane as well as attending some international meetings.

The MAT outgoing president was also very impressed by the efforts made by members from regions outside Dar es Salaam to attend the meeting and further thanked regional and district authorities for facilitating MAT members to attend the meeting.

She also appreciated the collaboration that exist between MAT and other sister associations such as TDA, TSA, AGOTA, PAT, TAMSA, MEWATA and urged the upcoming MAT Council to perpetuate the collaboration and bring more partners on board.

She further pinpointed some of the tools that have been able to sky rocket the MAT profile and its successes, these included the use of MAT Website and finalisation of the MAT strategic plan. Her advice on this was for MAT members to make good use of these tools to drive the association towards its objectives.

She wined her speech by thanking members once again for putting their trust on her to lead the associations and recommended that the new council should do more as the association approaches its 50th Anniversary. The main speech is attached in Appendix I.

Nomination and Voting of the New MAT Executive Committee and Council Members

Under the facilitation of two returning officers Dr. Salash Toure the RMO of Arusha and Dr Kivo from Songea District council. MAT members nominated and voted for new office bearers to fill in the following positions;

	President
	President Elect
	Secretary General
	Deputy Secretary General
	Treasurer
	Deputy Treasurer
	Seven additional members of the MAT Council

The voting was done by secret ballot as per the MAT constitution. After a successful completion of the exercise, the following MAT members were elected by majority votes to take over office;

- i. **Dr. Namala P. Mkopi** – President
- ii. **Dr. Primus Saidia** –President Elect
- iii. **Dr. Rodrick Kabangila** –Secretary General
- iv. **Dr. Kisa Mwambene** – Deputy Secretary General
- v. **Dr. Bill Haonga** – Treasurer
- vi. **Dr. Juma Athumani** – Deputy Treasurer

In addition to the above MAT Executive Committee members, the meeting also elected seven Council members for the association. These were;

- a. Dr Clement Mugisha
- b. Dr Emil Faida

- c. Dr Francis Frederick
- d. Dr Fausta Phillip
- e. Dr Best Magoma
- f. Dr Godlove Mfuko
- g. Dr Aubrey Mushi

In the group picture below are the newly elected MAT office bearers;

*From left sitting, Dr. Juma Athuman (Deputy treasurer), Dr Bill Haonga (Treasurer), Dr R. Kabangila (Secretary General), Dr Namala P. Mkopi (President), Dr P Saidia (President Elect), Dr Kisa Mwambene (Dep Secretary General).
From right standing: Dr. Aubrey Mushi (Council Member), Dr Godlove Mfuko (Council Member), Dr F. Frederick (Council Member), Dr. Best Magoma (Council Member), Dr. Emil Foida (Council member) and Dr Clement Mugisha (Council Member).*

Important: The New MAT leadership has been able to acquire members from other regions apart from Dar es Salaam; some of the members elected come from the regions of Mwanza, Lindi, Kilimanjaro, Ruvuma.

RESOLUTIONS OF THE MAT EXTRA ORDINARY MEETING

The MAT Extra-ordinary Annual General Meeting resolved the following issues;

- ✪ *The newly elected office bearers in consultation with legal officers and other MAT members should fast track the process of reviewing the MAT constitution so as to rectify areas that have been identified to have weaknesses.*

- ✪ *The issue of resource mobilization should be given the up most priority in the 2011 MAT activities and the initiative should commence as soon as possible so as to rescue the association from the financial crisis. The issue of direct deduction of doctor's salaries to contribute to the association should be worked upon the soonest possible.*

- ✪ *The committee in collaboration with all members should work together to revive MAT; the first initiative is to fast track the process of compulsory membership to MAT by all registered doctors to safeguard the medical profession. This includes incorporating a policy statement in the Medical and Dental Act Cap 125 which is now being reviewed.*

OFFICIAL CLOSING OF THE MEETING

The official closing session was graced by remarks from returning officer, Dr Salash Toure, who thanked and congratulated all MAT members for their commitment and collaboration through out the process of elections. He noted that it is a significant step forward and crucial move towards the credibility of MAT. He further thanked the outgoing president for facilitating the meeting that made the elections a reality and a success.

The returning officer also encouraged the new MAT Council to perpetuate the successes obtained through the outgoing council and emphasized on team work spirit. He urged them to work on all identified challenges in collaboration with all members and look for permanent solution to existing misunderstandings. In case of disagreements, the returning officer insisted that members should seek compromise through negotiations and not point fingers or show direct personal attacks. He further emphasized the need to portray a positive image in society so that we continue to command a high respect and gain trust to the Tanzania community. With those remarks, the returning officer invited the outgoing MAT president to proceed with the Handing over ceremony.

Statement from the MAT outgoing president- Dr. Edith Ngirwamungu

She commenced her statement expressing her happiness for the successful elections and noted that it will strengthen the integrity of the association. She also highly commended the mix of regions in the new leadership mentioning that it is a good strategy to expand MAT network hence giving the association more strength country wide. After those few words, the outgoing MAT president handed over the chain of office to the newly elected president as the custom requires.

Dr. Edith Ngirwamungu handing over the Chain of Office to the newly elected MAT president, Dr Namala P. Mkopi

Remarks from the New MAT President- Dr. Namala P. Mkopi

The newly elected president thanked the outgoing president for her support and for leading MAT to the position it is today. He also thanked all MAT members for putting their trust in him

and promised them to work with one spirit and in collaboration with fellow leaders and all members to raise MAT from its current status to a higher level as the association approaches its 50th Anniversary. He humbly requested for collaboration and support from the newly elected council members and all MAT members so as to make this dream a reality.

LIST OF APPENDICES

Appendix I: President's Speech

On behalf of the Interim Council, I would like to express my sincere appreciation to you members for the trust and cooperation that you provided to us through the entire period of our term in office.

Though it was challenging but we have managed to place the association at a level where it is now accepted by the doctors and the entire society at large.

I would also like to express my sincere appreciation to the Government of United Republic of Tanzania for supporting us both financially and materially during advocacy work, e.g Public Service Week, Sabasaba and Nanenane events. These have raised the profile of MAT among health sector workers, public servants and the population at large.

I would also like to thank the regional and district authorities who have enabled representatives from the regions to participate. I would also like to thank the higher learning institutions e.g. MUHAS, IMTU,

BUCHS for their advice, support and involving us in various events e.g Graduation ceremonies and I would wish other higher learning institutions would emulate this goodwill gesture.

Our gratitude is also extended to the sister associations e.g TDA, TSA, AGOTA, PAT, TAMSA, MEWATA for the working relationship and mutual trust that has been growing, I would wish the incoming Council to continue this relationship and bring onboard other association to play a more active role.

Finally I would like to thank my team who constituted the interim council for their hard work, commitment and stewardship – despite their tight working schedule.

The website has been a useful too to raise MAT profile and also selling it outside the country. We received an invitation to attend the World Health Professional Alliance Meeting on counterfeit drugs which was held in Abuja, Nigeria in November last year.

I would strongly encourage the next council to make good use of it by posting updates on the association activities and also individual interactions through MAT email info@mat-tz.org

I hope the new council will advance the communication further by adding the facebook and twitter that have now been the channel for communication for young professionals.

The strategic plan is another tool for continue building MAT through the shared vision. The SP is a useful tool when approaching donors or partners for support. Let us make use of it and we strongly believe that more partners will come in as time goes on. What they are interested to see is how we ourselves are committed to implement it and support it through our revenues. Donors want to identify themselves with anything that is successful. Just as the United States of America President Obama’s famous campaign slogan says –“YES WE CAN”, we as doctors are capable of financing MAT. In Tanzania we also have a Swahili saying, “Penye nia Pana Njia” which translates in English as **Where there is a will, there is a way.**

Once again thank you for giving me this great opportunity to lead the Medical Association of Tanzania.

It is my sincere hope that the New MAT council will carry the Association to a higher level so that the dream of the MAT golden Jubilee will be realised.

May God Bless You and MAT

Thank You for your Attention!!
